ABOUT US

A-Star International Tutoring Limited

has been a learning centre par excellence with a unique blend of innovation and support for students in their learning journey.

Since its inception in 2012, A-Star has striven to offer the best learning experience to its students to realise their academic goals. The learning centre has been able to achieve this by providing services to students across all schools in Hong Kong irrespective of the curriculum. Students from local schools, international schools, boarding schools and also home-schooled students and students opting to take International Advanced Levels (IAL) as private candidates have found learning support from our qualified and experienced teachers.

A highly experienced team of teachers support and prepare students for I/GCSE (Pearson and Cambridge), IAL, IBDP and MYP and University admissions including S/SAT, TOEFL, IELTS and Pearson Academic.

The learning centre has also provided a lot of support to students during the difficult academic years of 2019-2020 and 2020-2021 to ensure that students remain on top of their course work. A-Star is proud that all its students were accepted by senior high schools and universities. Additionally, the learning centre communicated with students' universities / boarding schools in the UK to accept reference letters and predicted grades offered by private learning centres like A-Star's in view of the cancellation of exams by the Examination Boards such as Pearson, Cambridge and IB due to Covid-19 pandemic.

The brand's IB-certified teachers developed unique methodologies to teach IBDP subject Theory of Knowledge both in English and Chinese to support its students besides assisting them with Extended Essays and internal assessment exams of different subjects. Teaching is done on a 1:1 basis focussing complete attention on the academic success of the students. A-Star is proud to make valuable contributions to students, many of which join their learning centre in middle school and then continue till they join senior high school in the UK or move on to the university.

Founder

ACADEMIC COURSES

Our students will follow their own personal school program and work one-to-one with their tutor. Following your child learning progress, our program is adjusted to meet their exact needs at all times after discussing with their parent. We give homework and follow up with their parents after class. Our methodology guarantees more confidence and motivation of your child

10 STEPS CONSULTING SERVICES

Jenny was a Year 9 student in a local school in Hong Kong. Always a bright student, her grades suddenly started falling. Concerned, her mother contacted A Star for advice and counselling. Many discussions later, our consultants advised that Jenny needed more challenging studies which would keep her mentally engaged. She was transferred to an international school under the IB curriculum where Jenny discovered her interest to pursue higher education in Economics in Boston University. Our consultants advised her to build her Personal Branding by participating in extra-curricular activities and community services. She was elected as her School Captain and joined various charity groups in school as well as out-of-school during summer breaks. She built up her CV in consultation with our experts and applied to various universities in the US. Finally, she is now in 3rd year at Boston.

CASE STUDY

CASE STUDY

2

A Star International boasts a strong team of consultants to advise on all gamut of international admissions, its processes and preparation so that the students are able to actualize their dreams and aspirations. A student (name withheld on request) came to us at the last stage of his application process. He was applying to a US university for Liberal Studies. He was struggling to prepare his CV and enhance his personal statement. Our consultants interviewed him and did a SWOT analysis which then reflected both in his CV and personal essay. He was successful in getting admission in the university of his choice.

HIGHER EDUCATION DESTINATION OF OUR STUDENT
